ERPFOCUS

PLEX MANUFACTURING CLOU

EXTENDED PROFILE

OVERVIEW

Plex was built from the shop floor up to deliver a unified ERP and MES multi-tenant SaaS solution. Backed by resiliency and redundancy from world-class data centers, Plex is designed to scale – adapting as your business grows. Its modular architecture supports extensions and integrations using industry-standard API technologies.

HOW DOES PLEX MANUFACTURING CLOUD HANDLE UPDATES?

Plex releases updates continuously with unique opt-in capabilities, enabling customers to immediately begin testing and using new features and eliminating the need for disruptive, costly upgrades. Customers can securely access Plex in a browser, from any device, with no client installation needed.

KEY FEATURES OF PLEX MANUFACTURING CLOUD ERP:

- **Real-time production management:** Gain full transparency over the manufacturing process with real-time data tracking and automated workflows.
- **Quality Management:** Ensure product quality with integrated quality checks and compliance management features.
- **Supply Chain Management:** Streamline your supply chain with advanced forecasting, inventory management, and supplier collaboration tools.
- **Financials & Accounting:** Manage financial operations, including budgeting, accounting, and reporting, with robust financial modules.
- **Business Intelligence (BI):** Leverage built-in analytics to transform raw data into actionable insights, facilitating better strategic decisions.
- **Customer Relationship Management (CRM):** Enhance customer interactions and manage sales pipelines effectively with CRM tools.
- **Human Resources (HR):** Manage workforce operations, including payroll, recruitment, and employee performance tracking.

HOW DOES PLEX ENSURE SYSTEM AVAILABILITY AND PERFORMANCE?

Plex guarantees 99.9% uptime for its SaaS platform, ensuring your operations remain stable with minimal unplanned downtime. The platform is designed for high performance, allowing you to add users, devices, and machines as needed without impacting system speed or reliability.

WHAT ARE THE SECURITY FEATURES OF PLEX MANUFACTURING CLOUD?

Plex prioritizes data security through a multi-layered approach that includes encrypted data storage, secure cloud infrastructure, and regular security updates. These measures ensure that your business data is protected against unauthorized access and potential breaches.

WHAT KIND OF CUSTOMER SUPPORT DOES PLEX OFFER?

Plex offers extensive customer support services, including troubleshooting, usability assistance, and break-fix support. Their support team is available to help you resolve issues quickly, ensuring that your operations remain smooth and efficient.
