PROCORE®

OVERVIEW

Procore is a comprehensive construction management software designed to streamline project workflows and improve interdepartmental collaboration.

Serving a diverse range of users including main contractors, subcontractors, and owners, Procore offers a unified platform that connects all stakeholders throughout the construction lifecycle.

INTEGRATIONS AND API

Procore supports integration with a variety of popular tools and services, enhancing its functionality and adaptability. The platform's open API allows for custom integrations, enabling businesses to tailor the software to their specific needs.

PROCORE COPILOT AND AI

Procore Technologies has introduced Procore Copilot, an AI-powered assistant designed to enhance productivity and efficiency.

Procore Copilot offers advanced search capabilities, automates routine tasks, and provides insights to help construction professionals focus on higher-value activities.

TRAINING AND CERTIFICATIONS

To ensure users maximize the platform's potential, Procore offers comprehensive training resources and certification programs. These educational tools are designed to help users effectively implement and utilize Procore's features while promoting industry best practices.
